Profile

Full Stack Developer skilled in React, Next.js, Node.js, and MongoDB, with experience building scalable and user focused web applications. Strong in API design, frontend development, and database modeling. Uses modern tools like VS Code + GitHub Copilot to write clean and efficient code.

Projects

LUXE - Clothing Ecommerce Platform ⎘
MERN, Tailwind CSS, Three.js, Framer Motion
- Developed a full-featured online clothing marketplace featuring immersive 3D product visuals via Three.js.
- Implemented a responsive React-based frontend with Tailwind CSS.
- Created backend APIs with Express and NodeJS, integrating MongoDB for dynamic product listings and user features.
- Designed user authentication, session handling, order history, and checkout logic.
- Optimized database schema and API endpoints for performance.

Basic Social Media Website
NodeJS, Express, MongoDB, EJS, Tailwind CSS
- Built a backend-driven social media platform enabling secure user registration, login, and personalized profile management.
- Implemented robust authentication and authorization using JWT and bcrypt.
- Designed complete CRUD functionality for posts, including creation, editing, deletion, and dynamic liking.
- Used MongoDB with Mongoose schemas to maintain structured relationships between users and posts.

Skills

Programing Languages
C++, TypeScript, JavaScript

Frontend and Frameworks
React, Next.js, Tailwind CSS

Backend
Node.js, Express

Databases
MongoDB, MySQL

Core CS
DSA using C++, Computer Networks, Database Management System

Tools
Git, GitHub, Postman, VS Code + GitHub Copilot
